

## **Interact with your PC with Speech Recognition**

**Speech Recognition in Windows 7** allows you to command your PC with your voice including the capability to dictate into almost any application. You can dictate documents and email and surf the Web by saying what you see. An easy setup process and an interactive tutorial are available to familiarize you with the speech commands and train your computer to better understand you.

Learn [what you can do with Speech Recognition](#) and [how-to set up Speech Recognition](#) including how to set up your microphone, teach yourself how to talk to your computer, and train your computer to recognize your speech.

**Also explore how to:**

- [Dictate text using Speech Recognition](#)
- [Use the dictation scratchpad](#)
- [Add or edit words in the Speech Dictionary](#)
- [Use Common commands](#)
